Vanishing Housemaids

In other days when people found it difficult to get efficient domestic help, they were wont to say that "no one wants to do housework any more." It is one of the advantages of modern life that the prevailing dislike for housework can now be analyzed and all the reasons for evasion many Democrats. WASHINGTON

Harriman Occupies Peculiar Position

WASHINGTON, Jan. 24.-One of the most interesting figures in the Truman Administration is Secretary of Commerce W. Averell Harriman. He represents that curious phenomenon of American life—the rich man in politics. As wealth is said in the Bible to be a barrier to heaven, so in the past it has often proved a barrier to political advancement.

In his service abroad under President Roosevelt, Harriman developed a sincere interest in many of Roosevelt's objectives. He tends to think of himself as a liberal. Thus, for example, he was an honored guest at the recent dinner given by the liberals who later formed the new organization, Americans for Democratic Action.

Yet at the same time he possesses one of the largest private fortunes in America. Who's Who lists him as a partner in Brown Brothers, Harriman & Co., one of groups in Wall Street. The major family interest is railroads and, since 1932 he has been chairman of

the board of the Union Pacific. Because of his railroad connecton, head of the National Farmers Union, pointed out that Harriman was one of the railroad executives ment which the anti-trust division of the Department of Justice has the men involved.

U. S. Leaders Of Today Compared

WASHINTON, Jan. 24. THERE appears these days considerable not entirely sincere concern being manifested about the alleged serious deterioration in the personnel of the Government service. Loud lament is made over the inability to get good men to come to Washington or to get them to stay very long when they do.

READING some of these almost tearful outpourings, it would be easy to conclude that there is not a single man left of brains or character in the whole Federal Administration; that the Government is now exclusively in the hards of the feeble-minded and unfit; that the numan level of officialdom is alarmingly low. There are several things that can be said about this presentation. One is that it simply is not true. Another is that the effort to make it seem true is not unmixed with political prejudice and personal disappointment.

FOR EXAMPLE, some of the most pitiful bleating about this so-called 'deeply disturbing" state of affairs comes from former members of the Roosevelt "inner circle" and their not altogether disinterested literary aides whose day of White House rivilege has departed and whose elief is that all virtue and wisdom went out of the Government when the Roosevelt regime ended. Croton Students Planting Tulips Now To Be Entered In Flower Contest Next Spring

Students at the Croton Avenue abiic school are learning to appreciate the finer things in life by studying 100 of the best known paintings in the world in their art classes. In the class of Mrs. Morphydd Brown, teacher of art in the school, the pictures are found on the walls where the study is going on.

Many other projects are being carried out in the art classes under Mrs. Brown's supervision including the making of silhouettes, creating of snowflake designs and plaster of Paris modeling. In the latter work, the plaster of Paris is placed over various glass dishes and other models and when hardened, is parted from the model with the resulting design. The work is later painted very ar-

Boys and girls of the school are already thinking about Spring. The students have secured tupil bulbs and are planting them in pots indoors to be transplanted later in the flower beds of their homes. During the spring months, before the dismissal of school for the summer, the resultant tulips wil be brought to the school and entered in the annual flower and vegetable contest. Committee Arranges Observances In Schools In February; Plans Town Meeting

Almost the entire membership of the executive committee of the Goodwill Conference met in the library's assembly room, Wednesday afternoon, to plan the local observance of Brotherhood

Understanding and an atmosphere of good-will prevailed at the meeting, stated Rev. Thomas J. Jones, chairman of the committee.

Brotherhood Week will be the week of February 16-23, and a committee consisting of Father Streiff. Miss Nannie Mitcheltree, and Dr. Frank L. Burton was appointed to see that the week is observed in all the schools. Miss Mitcheltree announced that a Brotherhood assembly at 9 o'clock Thursday morning, February 20, in Washington Junior High school will be open to the

Brotherhood teams will be formed by Senior High school pupils, who will present programs at the various service clubs and women's clubs. Rev. Jones and Father Streiff are seeking the cooperation of theaters in showing Brotherhood films also.

Dr. J. A. Gillespie made a motion that the group sponsor a public town meeting during the week following Brotherhood Week, during which a panel of four speakers

Pennsylvania's Surplus Potato Problem Large

By ARTHUR C. WIMER
(Special Washington Correspondent New
Castle News)

WASHINGTON, D. C., Jan. 24.—
The surplus potato problem appears to be just about twice as complicated in Pennsylvania as the country at large, according to data collected by the bureau of agricultural economics.

Pennsylvania growers and local dealers had on hand January 1, this year a total of 7,570,000 bushels of mercantable potatoes. This represented a gain of 2,777,000 bushels, or 58 per cent, over the corresponding date a year earlier. In the country, generally, stocks were only about 25 per cent greater than on January 1, 1945.

Based on January 1 indications, 1946 potato production in Pennsylvania totaled 20,066,000 bushels, of which 15,482,000 bushels, or 77 per cent. have been sold or will be offered for sale. Of the remainder, 1,204,000 bushels will be disposed of through shrinkage, loss after harvest and feeding to livestock, 2,550,000 bushels have been or will be used as food in farm households, and 830,000 bushels will be conserved for seed on farms were grown.

PICK FRUIT VARIETIES BEST SUITED TO NEEDS

Catalog illustrations, suggestive of the best in crop possibilities under certain ideal conditions, afford a partial guide for placing orders, but in the case of orchard nursery needs experienced growers have found that they must make their own final selections on the basis of their own requirements and conditions. Fruit men who are contemplating

the establishment of new plantings must exercise careful judgment in the choice of varieties. For growers making an initial start in small fruits a few specific suggestions are offered:

These include: Strawberries—

Howard 17 (Premier) and Catskill; red raspberries—Lathan and Taylor; black raspberries—Cumberland and Morrison; grapes, early—Van Buren, Portland and Fredonia; grapes, mid-season and late—Concord and Niagara.

Experienced fruit growers follow one other precaution—that is—in placing nursery orders, purchase only certified stock.

Get Jail Terms For Padding Pay

After Arrest In Payroll Padding Scheme

YOUNGSTOWN, O., Jan. 24. Twelve Republic Steel Corporation employes, arrested in a payroll padding scheme, pleaded guilty Thursday in municipal court and each was sentenced to 30 days in Mahoning county jail. They were charged specifically with receiving and concealing stolen property.

Joseph Beshare, 31, the alleged ringleader, was bound over to the grand jury after pleading not guilty on two counts, receiving and concealing stolen property and obtaining money under false pretense. Authorities indicate others are under suspicion and the money involved may run into several thou-

Shortage Of Psychiatrists Threatens To Disrupt Army's Plans For Ailing

WASHINGTON, Jan. 24.—(INS)— The chief of the army's neuropsychiatric division disclosed today that a shortage of psychiatrists threatens to disrupt plans for restoring mentally mal-adjusted soldiers to health rather than discharging them un-

Col. J. M. Caldwell, in revealing this problem, said that the army now is engaged in the broadcast scale program ever attempted for giving psychiatric treatment to soldiers with unhealthy minds.

This action grew out of lessons learned during World War II when the policy was to remove such individuals from the army as quickly as

Training Plans

Programs to train army officers for psychiatric duties were disclosed by Caldwell to be under way as a means of beating the present shortage of that personnel. He said however, that this action would mee only temporary needs, adding: "If these trained men don't stay

in the army it might create a shortage of psychiatrists which wouldn't be good at all. Our objective to reclaim as many soldiers mentally mal-adjusted as possible could not be accomplished in that case." Caldwell said that the intensified

program of psychiatry was launched because of the large number of men lost by the army during World War II as a result of the rapid weeding out of the unstable

Nearly 500 thousand soldiers were discharged from the service for neuropsychiatric reasons.

In the program to secure more ficers and 25 nurses were said to be starting training in this field at the Brook Army Medical Center, Fort Sam Houston, Tex.

Caldwell added that in July an additional 50 officers will enter these
